## Today's Keywords!!

- **Industrial** - Having to do with industry, business or manufacturing.
- **Revolution** - a huge change or a change in the way things are done.
- **Industrial Revolution** - a change from making things by hand to making them in factories.

# What was the Industrial Revolution?

The growth of industry in Britain from 1750 till the late 1800s.

Britain began to make money from products which it made, not products which it grew.

The Industrial Revolution changed the landscape, changed the way people lived and worked and changed how Britain was seen by the rest of the world.

By the Victorian era, Britain was known as the "workshop of the world"

# Industrial Revolution

- After 1700 major changes occurred in Great Britain:
  - How industry was organized
  - Skills needed by workers
  - How industry was powered
  - Where and how goods were sold

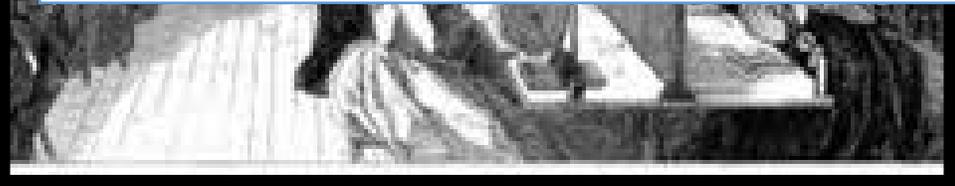

Incredible and world changing inventions were created during the Industrial Revolution...

As industry was 'revolutionised' the rest of Britain was forced to change too.

powered locomotive engines

production of yarn in a factory

have 'revolutionised'  
your life!

## TASK!

### Task 1:

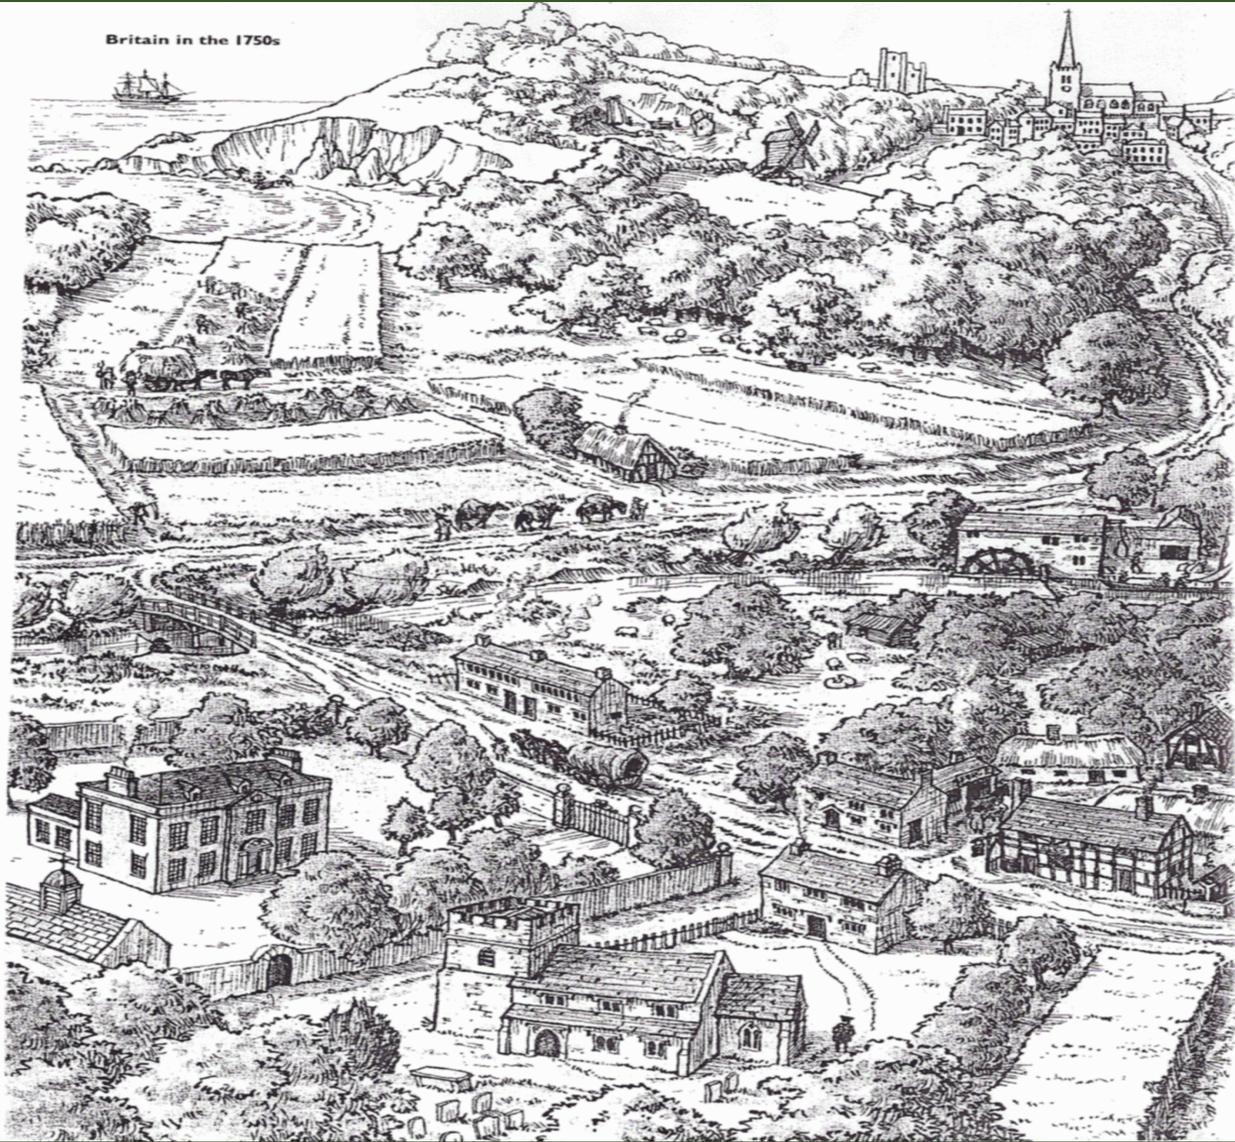

Have a really good look at the picture of Britain in the 1750s.

I have picked out all the important aspects I can see that show the conditions of Land Use, Transport, Power and Industry!

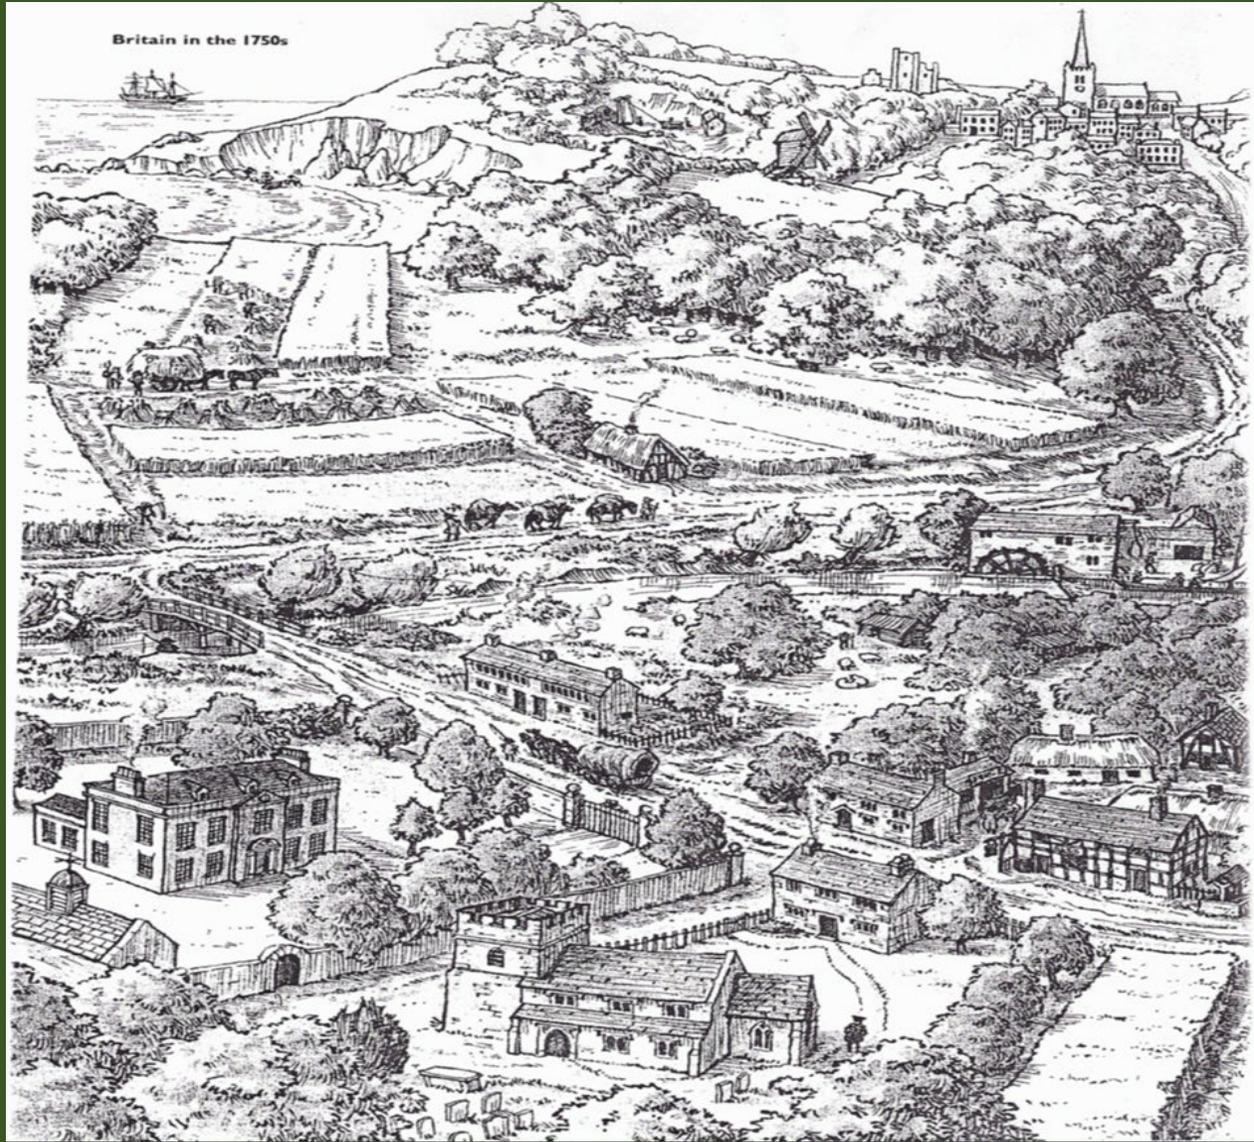

Your job is to write underneath each factor whether you think they are 'positive' or 'negative' aspects of British industry in the 1750s.

Picture year:	Land use	Transport	Power	Industry
Britain in the 1750s	farms	Horse and cart	Water wheel	farming
	church		Man power	
	Small homes	Sail boat	Windmill	mining
	Small mine	Walking for transport	Coal power	pub
			Powerful land owner in the big house.	Small factories

Britain in the 1750s

Britain in the 1750s

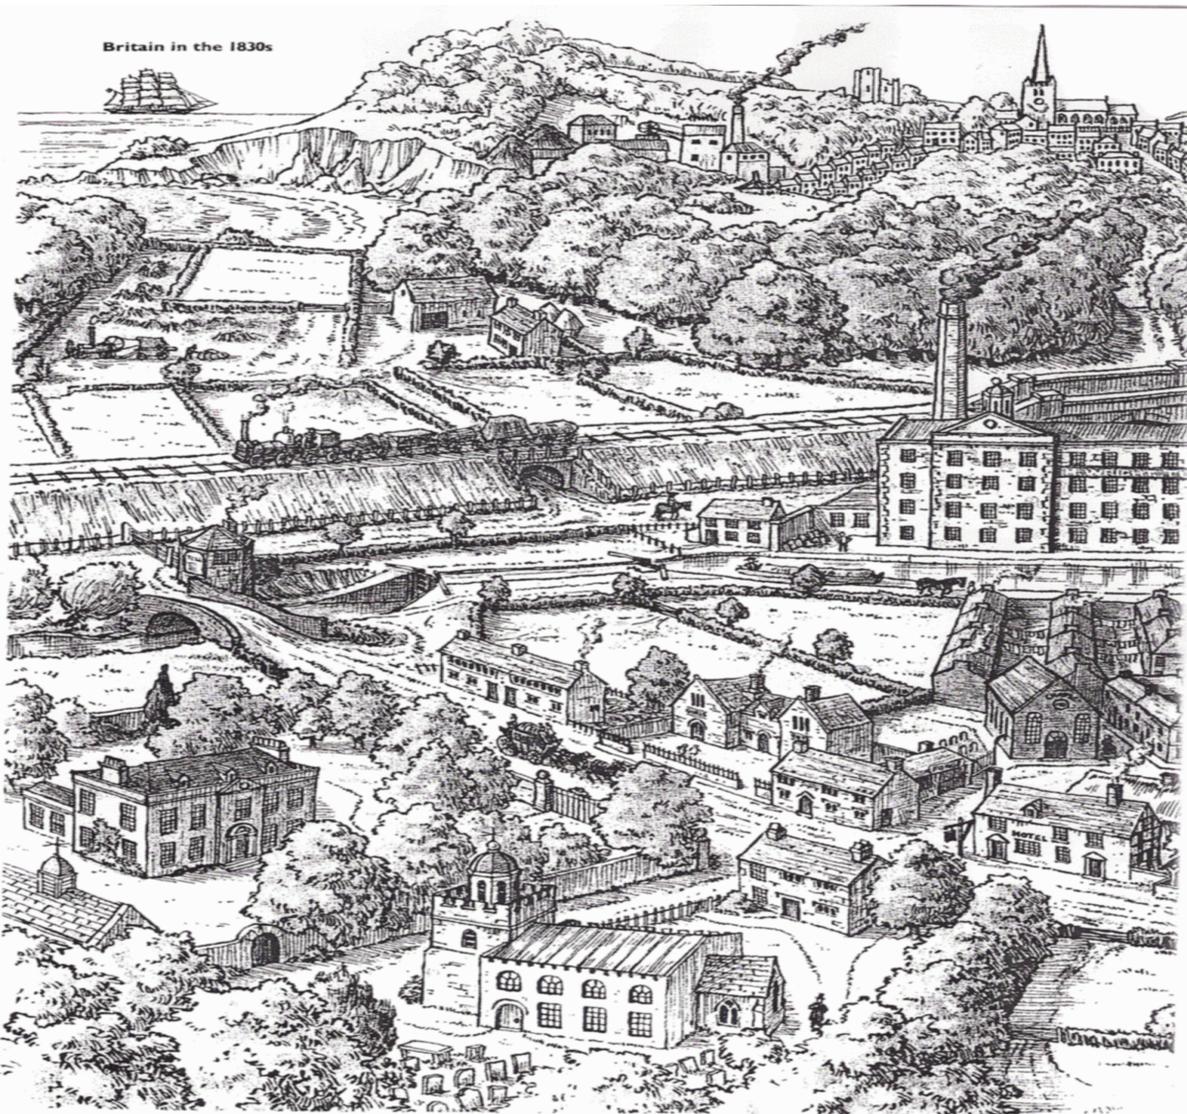

Picture year:	Land use	Transport	Power	Industry
Britain in the 1830s				

Picture year:	Land use	Transport	Power	Industry
Britain in the 1890s				

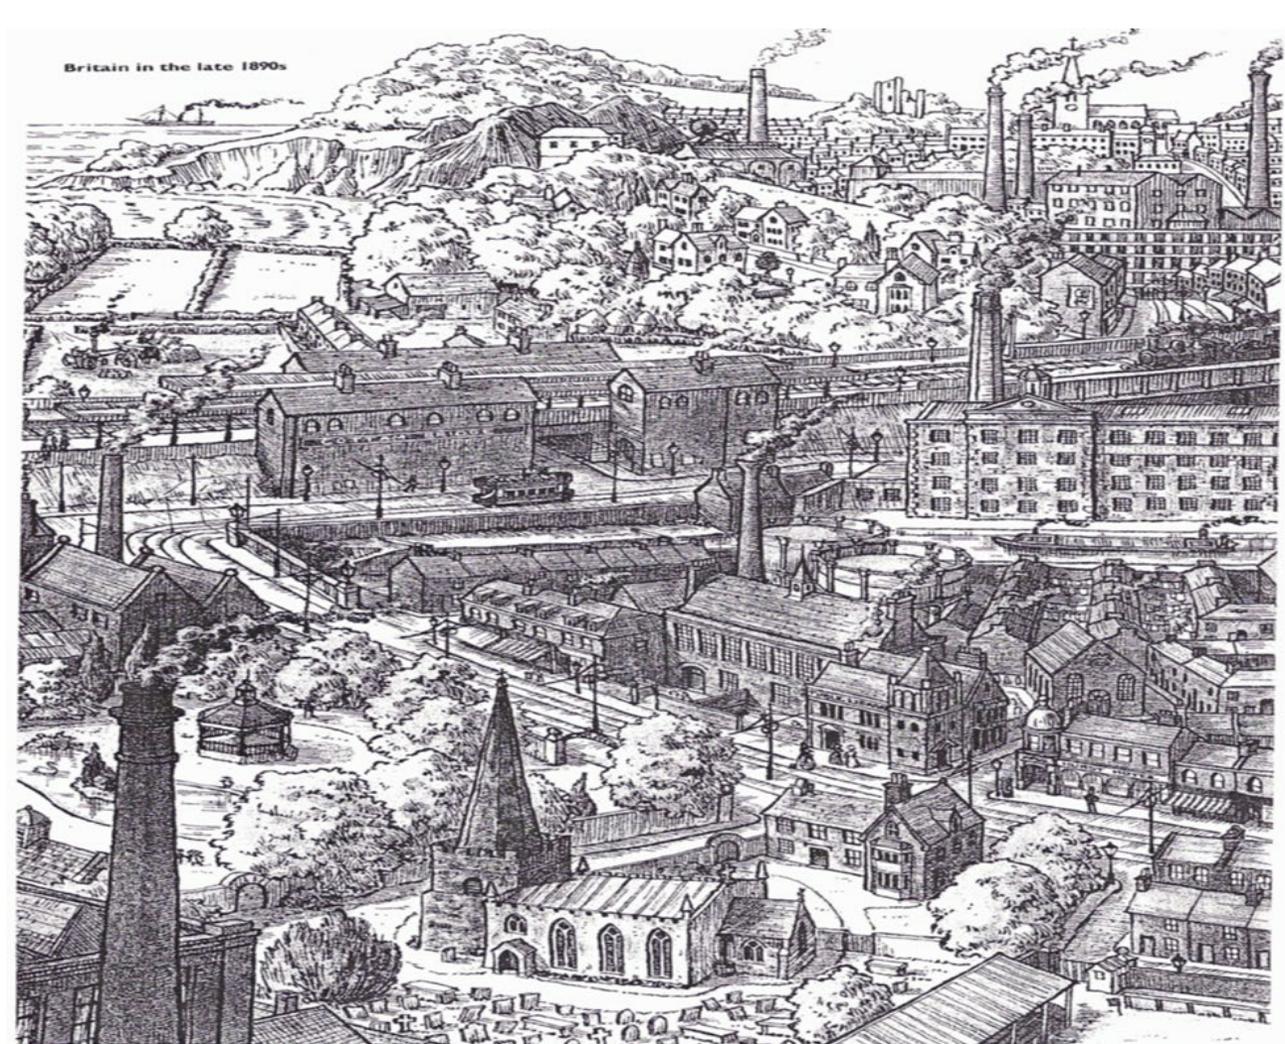

You are now going to look at similar pictures showing Britain in the 1830s and the 1890s.

This time you need to write down things you see in the picture that relate to the four factors; Land Use, Transport, Power and Industry YOURSELVES. THEN, highlight the **positive** and **negative** aspects of the factors you find in each picture.

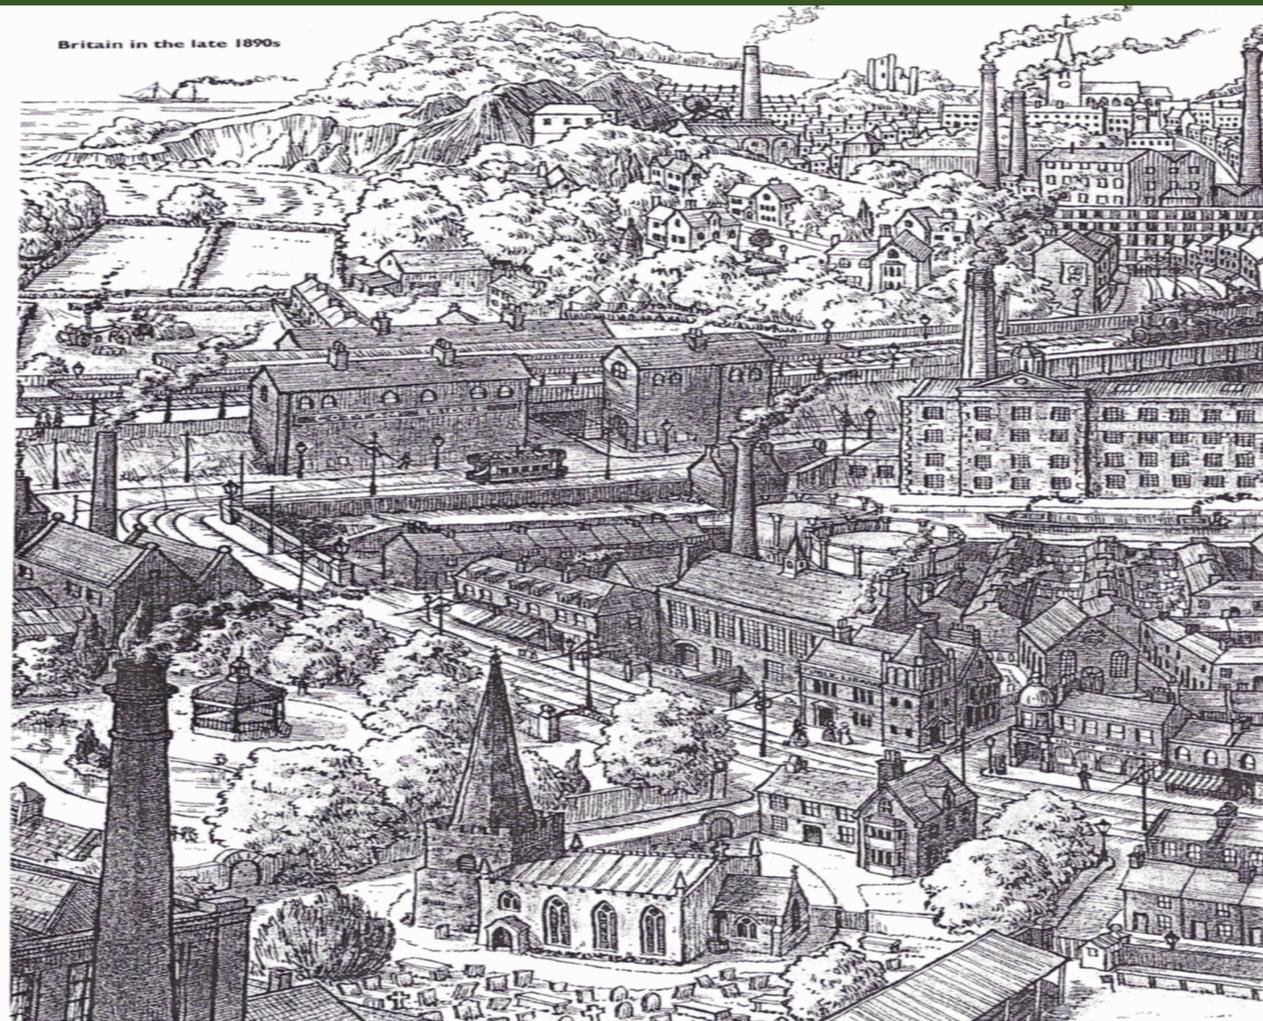

1830s

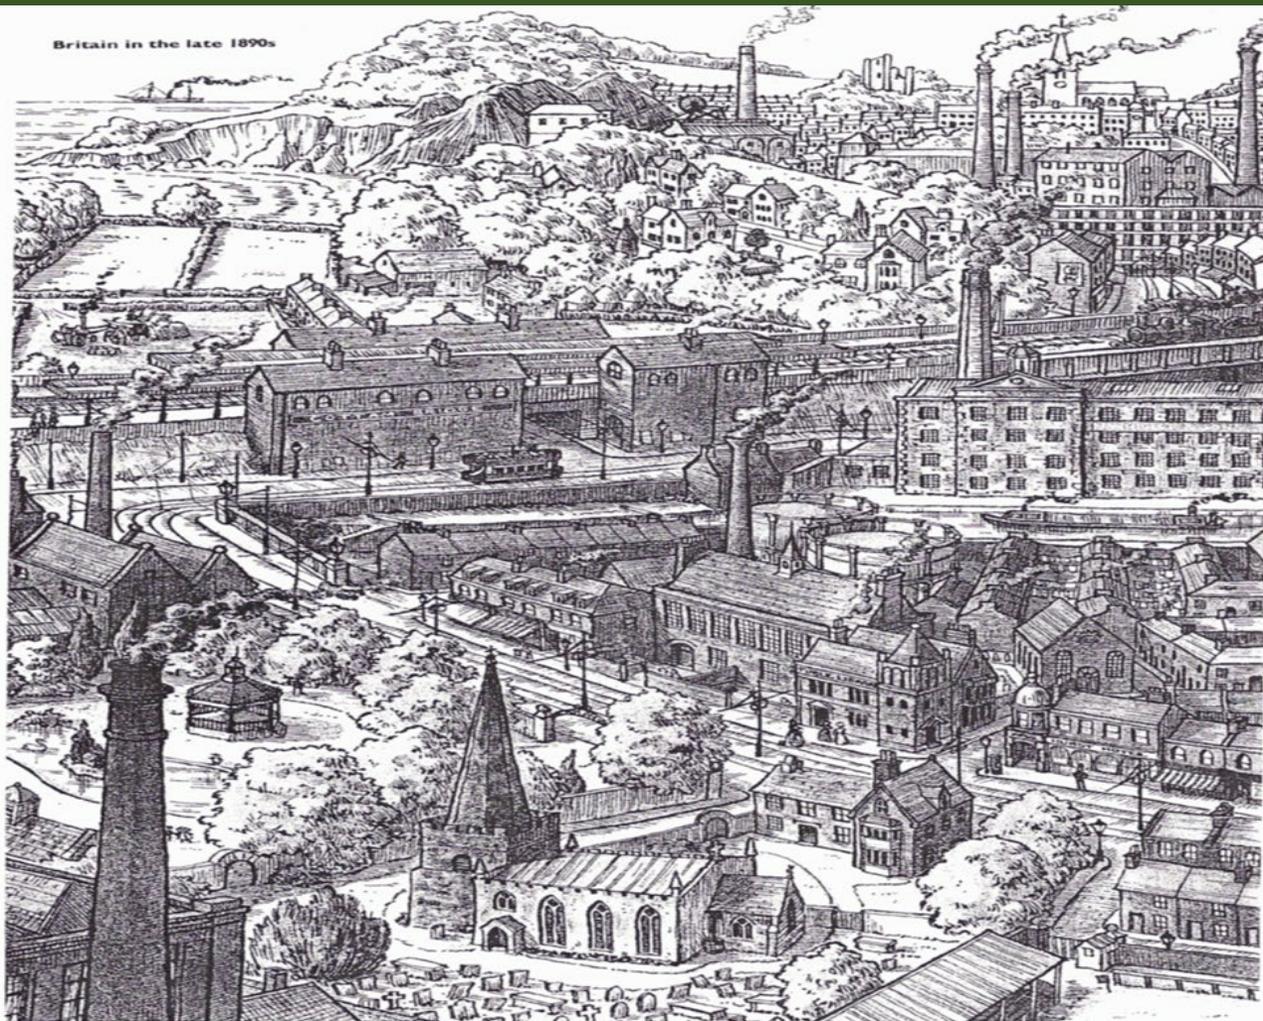

1890s

Britain in the late 1890s

Britain in the late 1890s

# How did the Industrial Revolution change Britain by 1890?

**1750**

1. Mainly made up of farmland, the main job was farming using horse and cart or man power.
2. A lot less populated - people lived in cottages in small villages.
3. No form of modern transport (no cars or steam trains) people mainly walked or used horse and cart. This limited travelling to new cities.

**1890**

Sentence Starters:

'The Industrial Revolution modernised British culture.'

'For example, Britain in the 1750s was very rural because...'. 'This had changed in the 1890s because...'

'Another change in Britain that had occurred by the 1890s was...'. 'This meant that...'

'Therefore,...'

**Keywords:** Industrial, Agricultural, Industry, Modern, Revolution, Transport, Power

Challenge task!

The  
1750s

The  
1830s

The  
1890s

*Can you sum up the state of  
British industry of each year in  
just 10 words?*

## *Plenary:*

Which statement do you agree with the most?

1. By the late 1890s, life in the city looked like it was full of opportunities.
2. By the late 1890s, life in the city looked like it was dirty, dangerous and full of exploitation.
3. The new cities and factories in the city by the late 1890s helped Britain to advance and made the British Empire the most powerful in the world.
