

17 September 2024

Dear Parent/Carer

How to apply for an apprenticeship - information session

On Wednesday 25 September 2024 from 6pm – 7pm we will be hosting an informative session for Y10 and Y11 students and families.

We have invited a guest speaker, Harry McGregor, **IAG Apprenticeship Advisor & ASK Delivery Partner** who will be delivering a helpful session on the key aspects of:

- Where to look for an apprenticeship
- What types of apprenticeships there are
- Applications for apprenticeships
- Key things to include in an application for an apprenticeship

As a school, we have recognised that an increasing number of our students are investigating this type of post-16 training and career path and want to ensure that all our students and their families are prepared to make applications that are of the highest quality to have the highest chance of success.

If you are interested in attending, please complete the reply slip below and return it to Stocksbridge High School reception before Tuesday 24 September 2024 so that we can organise an appropriately sized room. It is recommended that students attend the event with their parents/carers. Please contact school reception if you have additional requirements e.g. access arrangements.

Alternatively, you can complete the Microsoft form/scan the QR code linked to this event.
