

5 December 2025

Dear Parent/Carer,

Online Safety – WhatsApp Groups

We want to make you aware of a concern involving WhatsApp groups used by some young people in our school community. Reports indicate that in certain groups, harmful messages have been shared encouraging self-harm, including graphic images.

Please take a moment to check your child's phone and talk with them about thinking carefully before joining or sharing groups. Encourage them to speak to a trusted adult if something feels wrong online. If you find anything worrying or your child mentions being part of such groups, please contact us using the details below.

Our priority is your child's wellbeing, and we are here to support both you and the young people in our school to make safe choices.

Yours faithfully,

Jill Saccomando
Safeguarding Manager
